

ISMAIL NAFEES K

Aspiring Data Analyst

ismailnafees113@gmail.com | +91 99628 81784 | Ernakulam, Kerala, India | [linkedin.com/in/ismail-nafees-a29241374](https://www.linkedin.com/in/ismail-nafees-a29241374) | github.com/Ismailnafees | [Ismailnafees.github.io](https://ismailnafees.github.io)

PROFESSIONAL SUMMARY

Analytical and detail-oriented BCA Data Science graduate with practical skills in Python, Pandas, NumPy, SQL, Power BI, Excel, data visualization, statistical analysis, and exploratory data analysis. Built data analytics projects covering e-commerce sales analysis and customer churn analysis, including data cleaning, KPI analysis, SQL analysis, dashboard preparation, and machine learning. Seeking an entry-level Data Analyst or Junior Data Analyst opportunity.

TECHNICAL SKILLS

Data Analytics	Python, Pandas, NumPy, EDA, Data Cleaning, KPI Analysis, Statistical Analysis
SQL & Databases	SQL, MySQL, PostgreSQL, SQLite, Data Querying, Aggregation
BI & Visualization	Power BI, Tableau, Excel, Matplotlib, Seaborn, Data Visualization
Machine Learning	Scikit-learn, Logistic Regression, Classification, Feature Engineering, Model Evaluation
Tools	Jupyter Notebook, Google Colab, VS Code, Git, GitHub

DATA ANALYTICS PROJECTS

E-Commerce Sales Analysis & Performance Dashboard | Python, Pandas, Excel, Matplotlib

- Analyzed 1,500 e-commerce orders covering sales, products, regions, customers, promotions, payment methods, returns, and delivery performance.
- Performed data cleaning, data wrangling, exploratory analysis, aggregation, and KPI calculations using Python and Pandas.
- Built a performance dashboard covering monthly sales trends, regional performance, product performance, payment methods, promotions, and customer types.
- Reported **₹4.07M** total sales, 15,616 units sold, **₹2,715** average order value, 24.8% return rate, and 6.04-day average delivery time.

Customer Churn Analysis & Prediction | Python, Pandas, SQL, SQLite, Scikit-learn

- Analyzed 7,032 customer records to identify churn patterns across contracts, internet services, payment methods, tenure, charges, and customer characteristics.
- Performed data cleaning, feature engineering, exploratory data analysis, KPI analysis, and SQL-based analysis using SQLite.
- Calculated 1,869 churned customers and a 26.6% churn rate from the cleaned project dataset.
- Developed a Logistic Regression classification workflow with train/test splitting, numerical scaling, categorical encoding, and model evaluation using accuracy, precision, recall, F1-score, and confusion matrix.

EXPERIENCE

The Chennai Computers | Sales and Service | 2023–2026

- Handled PC and laptop build, sales, service, diagnostics, and technical troubleshooting.
- Performed hardware and software troubleshooting, system maintenance, and customer support.
- Assisted customers with technical requirements and service-related issues.

Family Business Experience — Nijam Gold Covering | Sales & Shop Assistant

- Supported sales and shop operations involving gold covering and ornament-making tools and birth stones.
- Developed practical experience in customer relations, inventory awareness, sales support, and day-to-day business operations.

EDUCATION

Bachelor of Computer Applications (BCA) in Data Science | SRM University | 2023–2026

Relevant coursework: Python Programming, Database Management Systems, Web Development, Statistical Analysis.

KEY ANALYTICS AREAS

Data Wrangling & Cleaning | SQL & Database Management | Data Visualization & Storytelling | Exploratory Data Analysis (EDA) | KPI Analysis | Basic Machine Learning | Inventory & Sales Analytics | Analytical Troubleshooting | Stakeholder Communication
